Evergreen announces yet another new 2002 product accessory for the Lightnin' Strike™ Rod Holder with Auto Hook-Set., the Ice Mount™ Kit. Now the ice fisherman can quickly and easily set up a Lightnin' Strike Rod Holder and fish ice rigs with confidence. Using this set-up ensures you won't lose that "big 'un" or your equipment when you have a hit-and-run strike.

The Ice Mount™ holds a Lightnin' Strike Rod Holder simply by screwing the Lightnin' Strike into the Ice Mount™, and tightening the provided wing nut. The Ice Mount™ Kit comes complete and no assembly is required. The Ice Mount™ Kit may be purchased separately.

Look for the Lightnin' Strike and accessories at all major sporting goods suppliers or log onto the website for a detailed list at [www.lightnin-strike.com](http://www.lightnin-strike.com).
